4. In the next screen, review the information that has been auto-populated. If everything looks correct, click on the "OK" button to save your changes and close the Properties window.

TUTORIAL

Opening/Saving a vCard Using ...

E-Mail Program: Mozilla Thunderbird

Computer Operating System: Windows XP, Windows Vista, or Mac OS X

With Mozilla Thunderbird, you can send vCard attachments but the program doesn't allow you to import the contact information directly into your address book. However, the information shows up in the preview window so you can simply copy and paste the information into a new address book entry.

TUTORIAL

Opening/Saving a vCard Using ...

E-Mail Program: Mail.app

Computer Operating System: Mac OS X

1. When you receive a vCard in Mail.app, double click on its icon in the message or in the attachments pane.
2. Address Book will open and ask you if you are sure you want to add the card to the Address Book. Click "Add."
3. The new entry will now appear in the Address Book.
